Profile	Determined Web Developer with a passion to create and learn endlessly. Experience as an artist and chemist create a strong foundation of transferable skills that seamlessly tie into design and software engineering. Eager and excited to collaborate with a team of talented professionals to develop beautiful and meaningful things
Experience	<p>Software Engineer/Project Manager, CreativEngine; Culver City, CA – 2015-Present</p> <p>Built, shipped, and maintained websites for over 50 members of Congress. Refactored and added features to our Amend CMS. Streamlined company workflow by producing DRY processes and boilerplate codebase. Managed development team tasks and interfaced with clients of over 25 websites in Congress.</p> <p>Materials Engineer, Northrop Grumman; Woodland Hills, CA – 2012-2014</p> <p>Investigative failure analysis, and testing of components to guarantee specifications are met. Created an application for the Northrop Grumman intranet to streamline department workflow. Built chemical database and inventory tool with Visual Basic to assist laboratories and ensure employee safety.</p>
Education	<p>Cal Poly, San Luis Obispo – Chemistry, 2014</p> <p>Dev Bootcamp NYC 2015</p>
Projects	<p>Front End Developer, Pique; Freelance – Aug 2016 - Nov 2016</p> <p>Pixel perfect HTML and CSS cut ups for a scholarship startup. Worked remotely with a small team : get-pique.github.io</p> <p>Mood Ring; Solo Project – Jan 2015</p> <p>Created a music player with a beautiful visualizer using Ruby on Rails with the Soundcloud API, Web Audio API and three.js library. Implemented OOJS for the Audio and Visualizer controller - moodringradio.herokuapp.com</p>
