Profile

Determined Web Developer with a passion to create and learn. Experience as an artist and chemist creates a strong foundation of transferable skills that seamlessly tie into design and problem solving. Eager and excited to collaborate with a team of talented professionals to develop beautiful and meaningful things.

Experience

Front End Developer, Studio III Marketing; Glendale, CA – 2018-Present

Provided front end development and support for over 150 websites. QA and testing for existing websites . Advocated and implemented accessibility in legacy and new projects.

Software Engineer / Project Manager, CreativEngine; Culver City, CA – 2015-2018

Built, shipped, and maintained websites for over 50 members of Congress. Redesigned the UI and UX for our custom Amend CMS. Added features like a WYSIWYG website editor in React. Managed development team and interfaced with clients of over 35 websites in Congress.

Materials Engineer, Northrop Grumman; Woodland Hills, CA – 2012-2014

Created an application for the Northrop Grumman intranet to streamline department workflow. Built chemical database and inventory tool with Visual Basic to assist laboratories and ensure employee safety.

Education
